

- **WorkArrangement: Work From Home**
- **Work Location: WFH Philippines**
- **Working Days: Tuesdays to Saturdays (If morning/mid shift); Mondays to Fridays (if night shift)**
- **Available Shift Options: PH Morning Shift, PH MidShift, PH Night Shift**

About the Role

We are seeking passionate Front End Engineers dedicated to designing and implementing innovative UIs and data visualizations. Qualified candidates should have experience with a wide array of cutting-edge front-end technologies, frameworks, and data visualization tools, including React, Redux, JavaScript, HTML, Babel, ES6, REST, Highcharts, and more.

What You Will Be Doing

- Design and develop responsive web applications using the latest front-end technologies.
- Collaborate with cross-functional teams to define, design, and ship new features.
- Ensure the technical feasibility of UI/UX designs.
- Optimize applications for maximum speed and scalability.
- Maintain and improve existing codebases.
- Conduct unit testing and debugging.

Required Qualifications

Expert Level Experience with:

- JavaScript / ES6
- HTML / DOM
- CSS / SASS
- HTTP Service Integrations / API definition
- Responsive Design
- React / Redux
- Globalization / Localization

Intermediate Level Experience with:

- Class and functional components in React
- Higher-order functions, factory functions, and composition
- Agile Software Development Methodology
- Bitbucket or similar version control repository services
- Git or other distributed version control systems
- Front-end grid and form control technologies (e.g., Kendo React, React Data Grid)
- Unit testing frameworks
- Visualization frameworks (e.g., Highcharts, D3)
- Cross-browser compatibility (e.g., Babel)
- Build tools (e.g., NPM, webpack, compression/minification)
- A/B Testing and Feature flags
- Big Data
- HTTP/2
- JIRA or similar workflow platforms

Preferred Skills and Experience

- Microsoft Azure (App Service, Application Insights, Azure DevOps, Azure Maps)
- Front-end UI testing frameworks
- OData, Kusto Query Language (KQL), SQL

What can you expect when you join us!

- Medical and Life Insurance package on the 3rd month plus 2 dependents
- A regularization increase on the 6th month
- Annual salary increase based on performance
- Tax-Free allowances incorporated in pay
- Salary loans with 0% interest, payable in 2 months
- Opportunity for self-improvements like access to online training sites such as Udemy, Pluralsight, and other resources
